## Luther Manor Continuing Precautions Related to COVID-19

September 28, 2020 4:59 pm

Good Evening from Luther Manor. The safety of our residents and staff remain our top priority and we will continue with our protocols, precautions and daily screening of staff and all Health Care Center and Assisted Living Residents. All visitor restrictions remain in place. This now includes outside visits only added for our Courtyard residents (by appointment only). Outside visits for our Health Care Center Residents begin on Monday, October 5th.

Thank you for your support, partnerships and commitment to our residents and staff as the pandemic continues to evolve. Please continue to connect with your loved ones as often as you can. Don't forget our Sharing God's Love team is here to help! Just email [SharingGodsLove@LutherManor.org](mailto:SharingGodsLove@LutherManor.org) to get started.

### Shout Outs of Thanks!

- **Thank you to Lex Reynolds a Junior at MIAD (Milwaukee Institute of Interior Design)!** The homemade postcards you created were fantastic. Thank you for being so giving, while busy with furthering your education!

### Campus Happenings

- As a reminder there are no inside visitors allowed in any part of Luther Manor or River Oaks, in Mequon. Our Terrace Independent Living Residents have been able to visit outside for a while now and our Assisted Living Residents started their outside visits last week. Our Health Care Center Residents outside visits begin on October 5th. In case you missed it, our Assisted Living and Health Care Center visits are by appointment. If you wish to schedule a visit and do not know how, please let me know and I will put you in touch with the correct scheduler. Please be considerate on the length of your visits and frequency, as space and times are limited to ensure protocols are being followed and as you can imagine the schedule is tight before the next visit and/or the staff assisting your loved one has to return to their time with the other residents.

Inside visits will be held at a later date and if a case of COVID occurs, we will have to pause visits per CMS guidelines until the health department clears us to restart them.

- We've showcased a lot of the special treat deliveries that we typically do on Friday's since COVID started. Our Terrace team thought they'd do something differently and went the healthy route this past week. Here is our treat of bright Red Delicious apples and the presentation that we hope brightened our residents' days.
