Thank you for your support, partnerships and commitment to our residents and staff as the pandemic continues to evolve. Please continue to connect with your loved ones as often as you can. ### Campus Update

- Results of the follow up testing of residents and staff in the Courtyards found two residents and one staff member positive for COVID-19. We continue working closely with the Wauwatosa Department of Health on steps to contain the spread and as always, will keep you informed.

We expect to serve several hundred people on February 2 during our vaccine clinics. Considerable effort is being taken to help make the process easy and to encourage as many people as possible to be vaccinated.

For some perspective, Luther Manor held our first vaccine clinic on January 5; just 2 weeks after the vaccine was even approved for use. We were among the very first long-term care organizations in the state to get the vaccine. On January 25, the vaccine was approved for assisted living and independent living residents. Our February 2 clinic was scheduled to coincide with the waiting period for the second dose. **We are very excited that a mere 5 weeks after the Pharmacy Partnership Program began delivering the vaccine to seniors across the nation, we will bring it to ALL of our residents - well ahead of the 700,000 Wisconsinites age 65 and older.**
