Luther Manor Continuing Precautions Related to COVID-19

January 4, 2021 4:39 pm

Happy New Year from Luther Manor! The safety of our residents and staff remain our top priority and we will continue with our protocols, precautions and daily screening of staff and all Health Care Center and Assisted Living Residents. All visitor restrictions remain.

Thank you for your support, partnerships and commitment to our residents and staff as the pandemic continues to evolve. Please continue to connect with your loved ones as often as you can. Don't forget our Sharing God's Love team is here to help! Just email SharingGodsLove@LutherManor.org to get started.

Thank you!

- **Thank you, Caitlyn Tyler from Los Angeles, CA** for the colorful and beautiful Thinking of You cards! If there was ever any doubt, these cards continue to be so important for encouraging many of our residents that do not have family thinking of them.

Campus Happenings

- In case you missed it, we are so excited to announce that we are conducting our first vaccination clinic for our Health Care Center residents and Luther Manor and River Oaks staff tomorrow, January 5th. We have not been given any updated information on when our Assisted Living or Independent Living residents will be able to receive theirs, yet will be sure to communicate this as soon as we hear.

If your loved one lives in our Health Care Center and you have not already turned in the Luther Manor and Walgreens authorization forms for them, **please return**

these to either me or our Director of Nursing, Char Ball at cball@luthermanor.org as soon as possible. I have re-attached both files, as well as the Moderna vaccine fact sheet for your convenience.

Campus Update

- Following up on our communication from late last week we did retest our Health Care Center residents and the testing results found five residents and one staff member from the Health Care Center that tested positive. As a result, we transferred these residents to our COVID Specialty Unit in the Health Care Center. We are retesting all Courtyard and Health Care Center residents today. Families of the residents who may have been impacted have been contacted. If you did not hear from us, your loved one is not on the affected unit. As you know, outside of this testing, all employees continue to be screened as they arrive and leave work each day. If any symptoms are present, the employee is tested immediately and sent home with further instructions. Residents in our Health Care Center and Assisted Living programs continue to be screened daily for symptoms and our Independent Living Residents are urged to self-screen (including checking their temperature) at least one time daily. These heightened precautions and ongoing monitoring help with early detection and to mitigate the spread when someone does become ill.
