## Luther Manor Weekly Happenings and Updates

August 19, 2021 4:51 pm

### Campus Updates

- We wanted to let everyone know that we have seen the press regarding both President Biden and CMS (Center for Medicare and Medicaid Services) stating that Nursing Homes are required to have all staff vaccinated. We have been studying and working through this objective from the start of vaccination availability and will share more details as we receive them from CMS.
- In the meantime, we now have a combination of four more residents and staff members that have asked to be vaccinated and the Department of Health will only come once we have five that have expressed interest. We only need one more, so if you know someone else (resident, staff, friend, family or even yourself) that is interested in getting vaccinated please let me know, so we can reserve our next clinic. The Moderna vaccinations are being administered through our partnership with the Wauwatosa Department of Health. To protect yourself and those close to you, we encourage all staff and everyone who is medically able, to get vaccinated. If you or a loved one have chosen not to in the past, we encourage you to reconsider. Once again you and your doctor are the best team in making this decision.
- We continue to conduct testing of our staff and residents that may have had exposure to the positive staff member from last week. Many of the second round of testing results are in and so far, they all came back negative.
- Based on the positivity rate in our area being over 10%, we continue to test all non-vaccinated staff twice a week. We did have test results of one support staff that does not have resident contact come back positive. This staff member is now under COVID-19 protocols and all staff members that may have come in contact with them are being tested per our protocols as well. We will continue to keep you updated on all test results.
