Luther Manor Weekly Happenings and Updates

September 22, 2021 4:42 pm

Campus Updates

- Yesterday we announced to our employees that after many conversations with residents, families, team members, community leaders and tracking the national conversation, Luther Manor is taking steps to implement a COVID-19 vaccine requirement. This includes our River Oaks facility in Mequon. All team members, including pool and contracted staff (other than those approved for exemption due to medical or religious reasons) must receive the full vaccine series for the COVID-19 virus by December 31, 2021. Our volunteers were already required to be vaccinated, so there is no change to that requirement. There are several steps in this process, yet if all goes as planned and the CDC, CMS and/or OSHA do not create any new directives we hope to report a successful implementation of this mandate with little to no staff member turnover caused by this mandate.
- As a follow up to my Monday evening update, all results for our COVID-19 resident re-testing are in and all resident tests came back negative. The vast majority of the staff test results are also in and those have also come back negative. We will continue to communicate the results and as previously shared, we will retest all residents and staff again 5-7 days from the Monday testing.
