Campus Updates

- One staff member in our Courtyards Assisted Living was found to be positive through our twice weekly routine testing. All staff and the families of those having loved ones who may have had direct contact with this staff member have been notified. If you haven't received a call from us, your loved one is not affected. All residents that live in the affected units are being tested today, as well as all staff members.

After consulting with the State of Wisconsin Department of Health Services we do **not** have to quarantine the entire program. This is a change from phone calls we made earlier today stopping all visits. We apologize for this confusion, yet this is due to a recent change in the CMS guidelines and because there are no active cases in the Courtyards it is not necessary. We know this allows residents to stay stimulated by the visits they enjoy with family and friends, so we continue to implore all visitors to take precautions seriously. This includes practicing proper hand hygiene upon arrival, in the apartments and at departure. This also includes wearing face masks and face shields in all required areas at all times. We will keep you updated as test results are returned.

- With our decision to go to mandatory vaccinations for all employees and care contract employees, we are encouraging staff not to wait until the deadline to be vaccinated in an effort to prevent situations just like this. We will continue to encourage this in addition to providing vaccine education.
