Campus Updates

- Our resident COVID Vaccine clinic is still being held on November 20th. Our nursing leadership team members are handling all necessary paperwork and online forms. If for some reason we are missing some key information or we need anything we will be sure to reach out to our residents' families. **Please be in contact with your loved ones to encourage them to get this booster vaccination.** The further away they are from their first two vaccinations, the more they need this!

We have a fair number of residents who are their own decision makers who are telling us they do not want the booster. As you know, we respect their decision yet understand the risk that comes with it as well. Please do what you can to help them understand the protection that comes with the booster shot. Remember, the most vulnerable among were given priority access to the vaccine and the booster for a reason. Thank you for your support as we continue to do all that we can to keep COVID in check!
