## Luther Manor Weekly Happenings and Updates

December 8, 2021 4:43 pm

### Campus Updates

- Following up regarding the notification last week that two of our fully vaccinated staff members tested positive for COVID-19. All staff and residents who were in close contact with these individuals were tested last week and were retested again this past Monday and all of the results are NEGATIVE. The residents will continue to be monitored for symptoms for another week.
- Today, a staff member in our Courtyards assisted living program developed a cough and nasal congestion while at work and was immediately tested for COVID. Despite being fully vaccinated, she did test positive. During the look back period, she had direct contact with 2 fully vaccinated residents and four fully vaccinated staff members. These exposed residents and staff are being tested today. Per the new guidelines, the two residents do not need to be placed in isolation. They and the staff will be closely monitored for symptoms and retested on Monday, December 13. If any of them tests positive, we will follow CDC guidelines and as always, we will keep you updated.
- As you know, we began decorating the one million square feet of space at Luther Manor during Thanksgiving week. This is no small task that, for years, is largely accomplished by our 300+ volunteers. COVID has drastically changed our volunteer pool, so we started earlier than usual to get it done in time. While touring our campus over the weekend, I ran into Bob and Pat who were very proud of the COVID decorating they did on one of our trees in the Rehabilitation Unit. Please know the extra PPE they used to decorate our tree was all unused:) If anyone needs anything to add to their tree at home, please let me know. It's better to laugh than cry!

- Reminder, we have another opportunity this Friday, December 10 to get the COVID-19 Vaccination and Booster shot at Luther Manor. If your loved one is new to Luther Manor or needs a booster shot or you have had a change of heart and wish to have them vaccinated for the first time, please let me know so I can make sure it is scheduled and we have enough vaccines available. We will be administering 1st, 2nd and booster doses of the Pfizer and Modern vaccine. We have one more opportunity this year scheduled for December 30th when we will administer the vaccine for 1st, 2nd and booster shots. I can get this scheduled for you now as well. Thanks for helping to Protect and Prevent!
